

Get MORE of What You Want From Your Business

Get A Grip: Six keys to getting what you want from an entrepreneurial company

Mike Kotsis led his 3rd generation family business through the worst of Michigan's downturn, taking the business to a new level, experiencing 60% growth. Mike established a leadership team comprised of both family and non-family to continue running the business. With 7 family members in the business, it wasn't easy! He continually focused on "Purpose, People, and Process", and now is passionate about helping other entrepreneurs to do the same.

Today, as a certified EOS Implementer, Mike spends all of his time helping entrepreneurial leadership teams implement the tools of The Entrepreneurial Operating System® (EOS). He uses EOS in his business (**GPS For Small Business**), and even in his family and personal life too. His passion is helping entrepreneurs to get MORE of what they want from their business, and less of what they don't.

As a speaker, Kotsis delivers exciting content from the national bestseller *Traction* that arms entrepreneurs with a simple and powerful tools that they can begin using right away with their teams to achieve:

- **Vision:** Helping leaders get 100% on the same page with the vision
- **Traction:** Helping leaders become focused, disciplined and accountable
- **Healthy:** Helping leaders become more open, honest, and cohesive

In as little as 90 minutes, your attendees will walk away with simple tools that will help them to achieve their vision, faster! No longer will the company run them – they will Get a Grip on *Their* Business.

"Mike recently presented EOS to our CEO roundtable and shared some incredible truths with actionable takeaways that were very helpful to the entire group (who happened to be pretty seasoned business owners). I highly recommend Mike!"

Jim Lange, Truth@Work CEO Roundtable

“ Mike's mentorship has immensely benefited PEA and resulted in defined processes for solving issues, increased accountability, improved internal communication and increased goal achievement. ”

Dave Hunter
Partner and Integrator,
Professional Engineering Associates (PEA)
